

Set of 2 red/white steel posts with sleeve - 2223546

Technical Spreadsheet

► WHERE TO USE IT ?

Prevent easily and quickly an internal or external access with this set of red/white steel posts to be fixed in the ground.

These steel posts can be installed in order to forbid the access to dangerous or prohibited areas.

► THE ADVANTAGES

This set of steel posts with sleeve allows a quick installation and also a fast removal. The sleeve has to be sealed in the ground at a depth of 15cm to insure a good stability to the post.

For the installation of a steel post to be sealed (diameter 50mm), it is recommended in case of a hard ground (pavement, concrete) to foresee a 100mm to 150mm diameter hole and a depth of 200mm to install the sleeve. Concrete sealing.

This display of steel posts is foreseen to delineate various areas. Of course you can use **NOVAP chain** or **ropes** together with this set. Several colours of chains and ropes are available on our website www.novap.fr

► FEATURES

Article	2223546
EAN	3306482223546
Price code	299
Packing unit	1 set
Selling unit	Set of 2 posts
Height of the post	Total : 95cm Above floor : 80cm
