

EcoPolyBlend™ Sump-to-Sump™ Drain Kit

EcoPolyBlend™ Sump-to-Sump™ Drain Kit

EcoPolyBlend™ Sump-to-Sump™ Drain Kit

Spill Control & Environmental -

By joining centers together with the patented Sump-to-Sump Drain™ kit for a total 66-gallon sump capacity, you will meet EPA and UFC requirements.

- Meets EPA and UFC requirements.
- The kit allows you to join centers together, effectively increasing the total sump capacity to 66 gallons.
- Achieve compliance in storage areas with units for 4-drum and smaller containers by using the Sump-to-Sump™ Drain kit to meet capacity requirements.

- Used to increase drum sump capacity by combining EcoPolyBlend™ Accumulation Centers

Recommended use

Spill Control & Environmental - EcoPolyBlend™ Sump-to-Sump™ Drain Kit
