

AT shelving		Rapid3 - Rivet Shelving TR18S502KHGDD8RR0 EAN:		  			
Dimensions	180x120x45 cm	N° of levels:	5 shelves	#UNKNOWN!			
Loading capacity (per level):	250 Kg. Total: 1.250kg	Weight (kg):	22.91				
Finishing:	Epoxy Anthracite Grey - RAL7016						
Packaging:	Carton box						
Pallet:	20 unit/pallet						
Article description and specifications:	 180cm 45cm 120cm  22,91kg  20 Metal Steel Shelving with HDF board with Rivet technology. This assembly system allows a higher sturdiness, easier assembly and longer durability. Safety use with no sharpen edges. Easy way to join divided uprights with an innovative and patented junction plate. Heavy load capacity (250kg per level). It is the perfect metal shelving for keeping all items organised in the basement, garage, storage room, archive, warehouse, industry, or other businesses. High-density fiberboards (HDF) with a polished surface finish. The edges of the boards are protected by the beams, which provides a longer durability of the product.
