

CLEAN AND DIRTY CLOTHING STORAGE MKB LOCKERS

Description

MKB lockers are very practical utility lockers used, among other things, for the distribution of health and safety articles, picking up clean clothes and returning dirty ones. Each locker is locked with an independent key and the common frame makes it possible to open all lockers at the same time. Person in charge of distribution of work and safety materials has access to all lockers so as to control stock levels and replenish them regularly, while each employee retrieves his or her allocation individually.

The main advantage of MKB cabinets is a significant reduction in consumption of OHS materials, and thus reduction in costs. The module with a holder for a bag for dirty clothes enables dirty clothes to be easily dropped in through the drop opening in the door. The modular construction of MKB lockers allow for their free configuration and gives the possibility to combine them with other social cabinets from our offer.

Applied technology of surface preparation through the process of zirconium phosphating and zirconium conversion of metal, provides very good paint adhesion and proper anti-corrosion protection.

Used powder coating in accordance with the regulation (WE) 1272/2008 (CLP) have not been classified as hazardous to health.

Lockers are backed by a 5 years warranty! In the first period (24 months), the Guarantor is responsible for all manufacturing defects of the product. In the remaining period (36 months), the Guarantor is responsible for the functional properties of the product, such as the varnish coat and durability of connections of the product elements (welding).

Dimensions	1800 x 800 x 500 mm		1800 x 400 x 500 mm	
Wykonanie	Made from 0.6 - 1.5mm thick steel.		Made from 0.8mm thick steel.	

Additional equipment	
	The legs are equipped with feet adjustable in the range of 0-10 mm, what help to level the cabinet.
	A base with a seat is available at an additional cost. Adjustable 0-10 mm feet help to level, raise and stabilize the cabinet. The bases, apart from a place to sit, enable the installation of a shoe shelf. Various types of seats are available: wooden or PVC.
	Roof is available at an additional cost. It helps to keep clean, in addition, the 22° angle of the roof prevents unwanted items from being left at the top of the locker.
	A shoe shelf is available at an additional cost. This is an additional space for storing shoes. A perforated shelf allows water to drain away and speeds up the drying of the shoes.

CLEAN AND DIRTY CLOTHING STORAGE MKB LOCKERS

Extensions are available at an extra charge. They increase the storage space.

Features of the extensions:

- screwed to the cabinet
- doors closed with a common 2-point locking mechanism.

Description of markings

5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.

ISO certification confirms compliance with standards and the high quality of products and services we offer.

Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.

We test our products in our own laboratory, the Centre for Research and Development (CBR). This ensures that the tests are comprehensive and carried out correctly.
